A lot of things to do those last weeks and months and so it could happen that the Titran's homepage has been somewhat neglected lately. But here we are and here comes a major update with presentation of the [new litters](#) & the status of each kitten, as well as our [new plans](#), a new video and plenty of new pictures as well her on the website as on our Flickr site.

By the way, you get direct access to [our Flickr photo site](#) by clicking on the **Flickr button right under the flags**. We update Flickr weekly with our cats & kitten pictures but we only update the pictures here on website now and then.

A lot of things to discover. The kittens of Olga, Linn & Going On are leaving us right now and so we get regularly news from very happy people: kitten is very well socialized, playful, purring & healthy, gets acquainted in a minimum of time to its new house and family and even dogs become its very best friend, it just takes a few more days.

Under "[Press](#)" you'll find a lovely tribute to our grand old lady Lenja, published in the magazine **InFocus of the Dutch NFO association NBK'85**.

Also during the vacation period, we stay available & accessible. If you are in our neighborhood or just passing by, you're more than welcome to come and visit us, so you can get a better idea of the way our cats & kittens share our daily life, what's our breeding philosophy and what kind of people we are.
